Harvard Puzzle "To Russia With Love"

Instructions: Guess the words defined by the cryptic clues (answers vary in length from three to eleven letters, five are capitalized, and one is an acronym) then enter them in the grid one after another in the same order as their clues, starting in the upper left corner. Across words that don't end at the right continue on the next row, and down words that don't end at the bottom continue in the next column. Six across words and six down words won't fit in the grid unless one of their letters is omitted. Those twelve letters, taken in order as they occur in across and down words, spell two words related to the mystery entry. Thanks to Kevin Wald '93 for test-solving and editing this puzzle.
